## Digging in for Willow Park

**P**incipals of **The Brown Group** were joined by happy purchasers, realtors, staff and associates for a symbolic start to the construction of **Willow Park** condominiums at Bayview and Finch Avenues in North York.

Representing the developer, **Jay Brown** welcomed the guests and thanked everyone for making this new condominium such a great success. Tucked into an established residential neighbourhood, Willow Park is a luxurious nine-storey building with a superb selection of two-bedroom and two-bedroom-plus-den suites still available, priced from the \$400's. Occupancy is slated for Spring 2012.

## Toronto Interior Design Group teams up with Fila for TIFF

**T**oronto Interior Design Group (**TIDG**), recognized for small space design, created the **Fila Lounge** and the Media Centre for the **NKPR IT Lounge** at this year's **Toronto International Film Festival (TIFF)**.

**Principal Yanic Simard** and the Toronto Interior Design Group created a multifunctional space for work and play. A pop-up installation with a warm and welcoming feel, the Fila lounge incorporated chrome and metal with splashes of colour.

"Fila is so pleased to have TIDG designing the Fila space," said Kathryn Hicks, Fila Marketing Manager. "Yanic understands the Fila brand and was able to create a room that communicates the brand message into a functional and beautiful space. He truly delivered the concept we were after."
